(a) When a licensing evaluation is conducted and the evaluator determines that a deficiency exists the evaluator shall issue a notice of deficiency, unless the deficiency is not serious and is corrected during the visit.

(b) Prior to completion of an evaluation or other licensing visit, the licensee, administrator, operator, or other person in charge of the facility shall meet with the evaluator to discuss any deficiencies noted, to jointly develop a plan for correcting each deficiency, and to acknowledge receipt of the notice of deficiency.

(c) The evaluator shall provide the notice of deficiency to the licensee by one of the following:

The department may assess civil penalties for continued violations as permitted by Section 1548. The fingerprint images and related information shall then be submitted to the Department of Justice for processing. . .
