1. STATE REQUIREMENTS LEVEL USE CASES

1.1. UC-4-01 UNCALENDARED CASE LISTING (UCL)

State Requirements Use Case Beginning

1.1.1. SUMMARY SECTION

Item	Description
Use Case ID:	UC-4-01
Use Case Name:	Uncalendared Case Listing (UCL)
Description:	This use case describes the steps that a scheduler Support Staff (Scheduler) user needs to take to create an Uncalendared case listing for each county and have it reviewed by a county user.
Actors:	<ul style="list-style-type: none"> Support Staff (Scheduler) County User
Triggers:	1. Scheduler user initiates UCL process
Pre-Conditions:	<ol style="list-style-type: none"> There are cases belonging to specified county with file dates within the scheduling window period Users have appropriate permissions to access calendaring
Post-Conditions:	<p>Main Flow:</p> <ol style="list-style-type: none"> UCL is created and archived. County User has completed task by updating UCL –OR- task expiration time has passed Case information/status is updated based on County UCL task <p>Alternate Flow:</p> <p>A1 – County UCL task completed offline</p> <p>Exception Flows:</p> <p>None</p>
Includes:	None
Extension Points:	None
References	Functional Requirements: S-10.1.2. Functional Requirements: WF-4.1.11 WF-4.1.16 WF-4.1.19

1.1.2. MAIN FLOW

Step	Action/Cause/Stimulus	Reaction/Effect/Response
1	Scheduler User navigates to Scheduling page.	System displays available scheduling

Step	Action/Cause/Stimulus	Reaction/Effect/Response
		options.
2	Scheduler User initiates UCL process.	System prompts user for UCL parameters which include: <ul style="list-style-type: none"> • Hearing Week • Modality • Scheduling Window • Applicable counties • Program type exclusions/exceptions (WF-4.1.11)
3	Scheduler User inputs UCL parameter information.	System generates UCLs for each applicable county. (WF-4.1.19) System tasks County User to review and update UCL and sets task expiration date/time based on business rules. (S-10.1.2) (WF-4.1.16) If County User fails to complete UCL Task prior to expiration date/time (adjusted for holidays and exceptions) OR if County User provides updates offline, execute Alternate Flow A1 – County UCL Task Completed Offline and continue to Main Flow Step 7.
4	County User navigates to their dashboard.	System displays County UCL Task.
5	County User opens task.	System displays UCL information and provides description of task required.
6	County User provides notes for entire UCL which may include: <ul style="list-style-type: none"> • Withdrawals • Scheduling preferences • Incorrect assignments (wrong county) • Duplicate cases • Companion cases (heard together) County User saves and confirms task completion.	System closes County User UCL Task and removes it from dashboard. System relays UCL updates to Scheduler User, and tasks Scheduler User with completing UCL updates.
7	Scheduler User updates individual cases based on UCL updates from County User and indicates UCL update task is complete.	System closes UCL update task and archives UCL until 30 days after hearing week has passed.
8	Flow ends	

1.1.3. ALTERNATIVE FLOWS

ALTERNATE FLOW A1 – COUNTY UCL TASK COMPLETED OFFLINE

Branched From:	Main Flow, Step 3
Flow Scenario:	UCL is completed offline OR County User UCL task expires.
Post-Condition:	<ol style="list-style-type: none"> 1. Updated list has been provided to the scheduler user. 2. System closes County User UCL Task and removes it from dashboard.

Branch To: Main Flow, Step 7

Step	Action/Cause/Stimulus	Reaction/Effect/Response
A1-1	The County User provides the updates offline and Scheduler User indicates that updates were received offline OR the County User fails to complete task before expiration.	System tasks Scheduler User with UCL update task and closes County User UCL task.
A1-2	Flow ends.	

1.1.4. EXCEPTION FLOWS

Branched From:	None
Post-Condition:	None

Step	Action/Cause/Stimulus	Reaction/Effect/Response
E1-1	None	None
E1-2

1.2. UC-4-02 CALENDAR CREATION

State Requirements Use Case Beginning

1.2.1. SUMMARY SECTION

Item	Description
Use Case ID:	UC-4-02
Use Case Name:	Calendar Creation
Description:	This use case details the steps taken by a Support Staff (Scheduler) user to create a hearing calendar.
Actors:	<ul style="list-style-type: none"> Support Staff (Scheduler)
Triggers:	1. User initiates calendar creation process.
Pre-Conditions:	<ol style="list-style-type: none"> Users have appropriate permissions to access calendaring Uncalendared Case Listing task is complete.
Post-Conditions:	<p><u>Main Flow:</u></p> <ol style="list-style-type: none"> Calendar is closed. Scheduling notices are generated. <p><u>Alternate Flow:</u> None</p> <p><u>Exception Flows:</u> None</p>
Includes:	None
Extension Points:	None
References	<p>Functional Requirements:</p> <p>S-10.2.1 S-10.3.7 S-10.4.4 S-10.6.3 S-10.6.4 S-10.7.1 S-10.8.1 S-10.8.9</p> <p>Functional Requirements: WF-4.1.1 - WF 4.1.3 WF-4.1.7 - WF- 4.1.10 WF-4.1.12 WF-4.1.14 WF-4.1.19 & WF-4.1.20</p>

1.2.2. MAIN FLOW

Step	Action/Cause/Stimulus	Reaction/Effect/Response
1	User navigates to Scheduling page.	System displays available scheduling options.
2	User navigates to calendar creation page.	Calendar creation page is displayed.
3	User initiates blank/open calendar	System prompts user to input parameters for the calendar or select saved blank calendar. (S-10.4.4) (WF-4.1.2) (WF-4.1.7)
4	User enters calendar parameters or selects saved blank calendar. (S-10.8.9)	System generates blank calendar and prompts user to make changes or accept calendar as displayed. If user entered new calendar parameters, System prompts user to save new blank calendar as a template. (WF-4.1.8)
5	User chooses to save or not to save blank calendar.	If user chooses to save blank calendar, system stores blank calendar for retrieval as template at a later time (S-10.3.7), then displays calendar to user. If user chooses not to save, system displays calendar to user.
6	User enters “special set” appointments based on the following attributes: <ul style="list-style-type: none"> • Interpreter needs • Specific scheduling requests • Expedited hearing requests • Continued hearings and initiates automatic calendar filling. (WF-4.1.3) (WF-4.1.14) (WF-4.1.19) (S-10.6.3) (S-10.6.4) (S-10.8.1)	System automatically populates cases into remainder of calendar availability based on parameters. System displays calendar and requests confirmation from user.
7	User reviews, confirms, and “closes” calendar. (WF-4.1.9) (WF-4.1.10) (S-10.7.1)	System generates scheduling notices. (WF-4.1.1) (WF-4.1.12) (WF-4.1.20) (S-10.2.1)
8	Flow ends	

1.2.3. ALTERNATIVE FLOWS

1.3. UC-4-03 SCHEDULE EXPEDITED HEARING

State Requirements Use Case Beginning

1.3.1. SUMMARY SECTION

Item	Description
Use Case ID:	UC-4-03
Use Case Name:	Schedule Expedited Hearing
Description:	This use case details the steps necessary for a Support Staff (Scheduler) user to insert an expedited case into a closed calendar.
Actors:	<ul style="list-style-type: none"> Support Staff user
Triggers:	<ol style="list-style-type: none"> Case has been flagged for expedited scheduling. –OR–
Pre-Conditions:	<ol style="list-style-type: none"> User has permissions to edit closed calendars.
Post-Conditions:	<p>Main Flow:</p> <ol style="list-style-type: none"> Expedited hearing is added to existing calendar. Scheduling notification generated. <p>Alternate Flow: None</p> <p>Exception Flows: None</p>
Includes:	None
Extension Points:	None
References	Functional Requirements: WF-4.1.17 WF-4.2.1 Functional Requirements: S-10.8.1

1.3.2. MAIN FLOW

Step	Action/Cause/Stimulus	Reaction/Effect/Response
1	User navigates to Scheduling page.	System displays available scheduling options.
2	User navigates to Expedited Hearing scheduling.	System displays list of existing calendars. (WF-4.1.17)
3	User selects a calendar.	System opens selected calendar and prompts user for expedited hearing details.

Step	Action/Cause/Stimulus	Reaction/Effect/Response
4	User provides expedited hearing details.	System adds hearing to calendar consistent with details provided. System displays modified calendar and requests confirmation from user.
5	User confirms calendar modification. (WF-4.2.1)	System saves calendar, updates case information (status, scheduled date, expedite grant flag, etc), displays expedite grant flag on calendar, and generates scheduling notice. (S-10.8.1)
6	Flow ends	

1.3.3. ALTERNATIVE FLOWS
