SECTION V. RESIDENT ASSESSMENT PROTOCOL SUMMARY

Resident's Name: _____ Medical Record No.: _____

1. Check if RAP is triggered.

For each triggered RAP use the RAP guidelines to identify areas needing further assessment. Document relevant assessment information regarding the resident's status.

- Describe:
 - Nature of the condition (may include presence or lack of objective data and subjective complaints).
 - Complications and risk factors that affect your decision to proceed to care planning.
 - Factors that must be considered in developing individualized care plan interventions.
 - Need for referrals/further evaluation by appropriate health professionals.
- Documentation should support your decision-making regarding whether to proceed with a care plan for a triggered RAP and the type(s) of care plan interventions that are appropriate for a particular resident.
