Supplemental Security Income/State Supplemental Payment (SSI/SSP)

- SSI/SSP provides a monthly cash benefit to enable aged, blind, and disabled people to meet their basic living expenses.
- SSI is funded by the US Treasury. SSP is funded by the State General Fund (GF).
- SSI/SSP serves approximately 1.3 million recipients in 20 categorical variations, such as independent single adult, or aged or disabled couple.

SSI/SSP Caseload

The total SSI/SSP caseload is comprised of recipients who are aged, blind or disabled with Medi-Cal eligibility categorical codes.

SSI/SSP

➤ SSI/SSP Budget:

Fiscal Year (FY) 2015-16

Estimated budget is \$9.7 billion (\$2.5 billion SSP portion)

FY 2016-17

Estimated budget is \$9.8 billion (\$2.5 billion SSP portion)

The Social Security Administration administers SSI/SSP for the state. Effective October 2015, the administrative fee is \$11.56 per benefit issuance, and is funded 100 percent General Fund.

Administration costs are estimated at \$185 million FY 2015-16; \$189 million FY 2016-17.

Maintenance of Effort (MOE)

To receive Medicaid reimbursement, states that provide an SSP payment must maintain the state's March 1983 payment level. To meet the ***Maintenance-of-Effort*** (also known as **MOE**, or **pass-along**) requirement, two methods are available:

1. ***Payment Levels Method*** — The State may not lower its supplementary payment levels for any of the 20 payment categories below their March 1983 levels.
2. ***Total Expenditures Method*** — State expenditures for supplementary payments in the current calendar year must at least equal expenditures in the preceding calendar year. If expenditures are less in the current year (shortfall), the State must increase expenditures in the next calendar year by an amount at least equal to the shortfall without any penalties.

In 2015, thirty nine states, including California, used the **payment levels method**.

Supplemental Security Income/State Supplementary Payment Payment Standards Aged/Disabled Individuals

- Effective January 1, 2016, a SSI/SSP monthly payment ranges from \$889.40 to \$1,664.20.
- As of January 1, 2017, a SSI/SSP monthly payment is projected to range from \$907.03 to \$1,699.90
- Average grants below are based on actual data from July 2014 through June 2015:

	<u>SSI</u>	<u>SSP</u>	<u>TOTAL</u>	<u>FY 2015-16(est)</u>	<u>FY 2016-17(est)</u>
Aged:	\$353.03	\$158.91	\$511.94	\$511.94	\$519.23

SSI/SSP and CalFresh

California SSI/SSP recipients are ***not*** eligible for CalFresh benefits because a \$10 cash amount is included in the SSP benefit in lieu of CalFresh benefits.

- This arrangement is authorized in Federal law and is called the “supplemental nutrition assistance program cash-out program.”
- \$10 is the CalFresh amount most California recipients could have obtained in 1975 when the state’s cash-out status was approved in Federal law.
- The CalFresh benefit is 100 percent federally-funded, however administration costs are shared by the state.
- The SSP payment contains no distinguishable amount for CalFresh. The CalFresh cash-out sum cannot be separated from the total SSP amount used to satisfy the SSI/SSP MOE requirement.

California is currently at the March 1983 payment level. To meet the SSI/SSP MOE requirement, the state cannot reduce the SSP monthly payment below their current levels.
