SUBJECT: CALFRESH FOR FOSTER YOUTH

REFERENCE: ALL COUNTY LETTER (ACL) 09-25, ASSEMBLY BILL (AB) 12 (CHAPTER 559, STATUTES OF 2010)

The purpose of this All County Information Notice (ACIN) is to stress to counties the importance of providing foster youth who are exiting Foster Care (FC) with the opportunity to apply for and participate in CalFresh. As stated in ACL 09-25, many foster youths exit their foster home or facility with little or no income or assets and without having accessed CalFresh benefits to which they may be entitled. During the difficult transition from dependency to independent living it is critical that this vulnerable population be afforded every opportunity to receive the nutritional assistance CalFresh can provide.

Prior to the release of ACL 09-25, fewer than five percent of youths aging out of foster care were applying for CalFresh benefits (SOC 405E Exit Outcomes for Youth Aging Out of Foster Care Quarterly Statistical Report). Since the release of the ACL, that percentage has increased to approximately 22 percent statewide (see attached chart). Although we are pleased to see progress, there is still room for further improvement, especially in counties below the state average. Therefore, we strongly encourage counties to revisit ACL 09-25 and to continue to strengthen efforts to provide youths aging out of foster care with information regarding CalFresh and with the opportunity to apply for CalFresh **before** they exit care. The increase in applications subsequent to

the release of the ACL clearly demonstrates the efficacy of this effort. The development of a collaborative process involving both CalFresh and Child Welfare Services staff is critical, and counties are encouraged to communicate with those counties reflecting a higher success rate to identify and incorporate best practices and procedures (please refer to the attachment).

Again, it is critical that counties maintain a commitment and continue their role as the provider of information regarding CalFresh benefits to foster youth exiting care. This is an extremely vulnerable population, and while some may benefit from transitional housing opportunities or other available assistance programs, many face an uncertain and unstable future, including homelessness and increased health risks. Providing them with the opportunity to receive nutritional security can be an important factor in mitigating these risks.
