TO: ALL COUNTY WELFARE DIRECTORS
ALL FOOD STAMP PROGRAM COORDINATORS

SUBJECT: COMPILATION OF ANNUAL FOOD STAMP PROGRAM (FSP)
SURVEY OF OPERATION AND ACCESS SURVEY RESULTS

REFERENCE: MANUAL SECTIONS 63-104.21(h) AND 63-205.1, ALL COUNTY
LETTER 94-11

The purpose of this letter is to thank you for completing the Annual Food Stamp Program (FSP) Survey of Operations and Access for State Fiscal Year 2005/2006 and to transmit the results to you. State regulations require that all counties complete an annual survey and review hours of operation of FSP offices to ensure that the needs of recipients are being adequately met. I hope that all counties and food stamp stakeholders will find the results of the survey to be informative and a valuable planning tool.

As with prior surveys, the information provided is useful to the California Department of Social Services (CDSS) in meeting statewide program needs. It allows CDSS to respond to information requests regarding the administration of the FSP by the County Welfare Departments (CWD's) and provides CDSS with a tool to use in the evaluation of legislative proposals and regulatory changes. The attached report reflects the CWD's operations as of June 30, 2005.

If you have any questions or comments regarding this notice, please contact Rosie Avena, of the Food Stamp Policy Implementation Unit at rosie.avena@dss.ca.gov or (916) 654-1514.

Sincerely,

SUMMARY

State regulations require that all County Welfare Departments (CWDs) provide an annual report on their operations and activities associated with the administration of Food Stamp Program (FSP) benefits, including a review of their hours of operation. In accordance with these regulations, the Food Stamp Branch (FSB) of the California Department of Social Services (CDSS) requested that all counties complete the annual Food Stamp Program Survey of Operations and Access (ACIN I-45-06, June 14, 2006). The information requested by the survey is instrumental to CDSS in meeting statewide program needs, responding to a variety of information requests, and evaluating legislative proposals and regulatory changes regarding the administration of the FSP in California.

This report provides survey results of FSP information collected in two primary areas—Access and Awareness activities conducted in State Fiscal Year (SFY) 2005/2006 and Certification activities based on county operations as of June 30, 2006. It also contains information regarding face-to-face interview waivers and extended office hours.

ACCESS AND AWARENESS

Application Access

- Other than County Welfare Department (CWD) offices and certification sites, the most frequently utilized methods and sites for making food stamp applications accessible were direct mail, internet, and telephone/facsimile requests; community events, in-home visits, one stop centers/family resource centers, hospitals/clinics, and community-based organizations.
 - Fifty-six counties utilized food stamp applications translated in languages other than English. Spanish, Vietnamese, and Russian were the languages most frequently used.
 - The most frequently utilized methods of application assistance provided to clients were eligibility workers assisting via interactive interviews, bilingual staff, and eligibility worker/support staff assistance in filling out applications/answering questions.
-

-
- Forty counties (87.0 percent of statewide FSP households*) provided outstationed eligibility workers at sites other than CWDs. The top three most frequently utilized sites for outstationed eligibility workers were hospitals/clinics, in-home visits, and one stop centers/family resource centers.

Face-to-Face Interview Waivers

- Primarily, clients first become aware of the option to waive the face-to-face interview when the eligibility worker sees a potential need and informs the client.
- Forty-eight counties used eligibility workers to conduct the face-to-face waiver screenings. Standardized questions were used by the 7 counties that engaged clerical staff to conduct this process.
- Fifty-two counties (97.1 percent of statewide FSP households*) waived face-to-face interviews for clients. Of the 52 counties, 47 indicated that ten percent or less of all face-to-face interviews were waived. Five counties indicated that greater than ten percent were waived.
- When asked to identify the top three reasons face-to-face interviews were waived, counties cited illness, household members age 65 or older with no earned income, and physically disabled household members with no earned income.
- Telephone interviews were the primary replacement method used by 40 of the 52 counties that waived the face-to-face interview.

Program Access

- Twenty counties (74.0 percent of statewide FSP households*) maintained an FSP hotline telephone number that provided general FSP information. Of these 20 counties, two indicated their hotline also included information about noncitizen eligibility, and six indicated their hotline provided information pertaining to outreach activities.

*Source: Food Stamp Program Participation and Coupon Issuance Report (DFA256). The statewide average was computed based on monthly household totals for the 12-month period July 2005 through June 2006.

NOTE: Due to conversion to a new automated system (CalWIN), prior months data was used when necessary.

-
- Fourteen counties (29.9 percent of statewide FSP households*) utilized local media public service announcements to provide general FSP information. This is an increase from last year when 7 counties, representing 10.9 percent of statewide FSP households, provided general FSP information via local media. Of these 14 counties, 7 also included information about noncitizen eligibility.
 - The two most frequently utilized FSP outreach activities were providing extended office hours specific to the county and providing informational brochures/flyers. The single most effective outreach effort was outstationed eligibility workers.
 - All 58 counties utilized various sites/methods for distributing material and/or conducting presentations about the food stamp program in general. Community events, community based organizations, and one stop centers/family resource centers continue to be the most frequently utilized sites/methods.
 - Eleven counties provided FSP educational materials and/or conducted presentations specifically for migrant workers. The most frequently utilized sites/organizations were community events, community-based organizations, and migrant education sites.
 - Twenty counties provided FSP educational materials and/or presentations specifically for noncitizens. Community events and community-based organizations were most frequently utilized.
 - To improve FSP outreach efforts, 41 counties (92.4 percent of statewide FSP households*) partnered with other Health and Human Services agencies, schools and community based organizations.
 - Twenty-three counties (70.0 percent of statewide FSP households*) implemented new FSP outreach activities during SFY 2005/2006. The majority of the activities were ongoing, rather than one-time only.
 - Twenty-four counties (75.6 percent of statewide FSP households*) indicated plans to implement new FSP outreach activities during SFY 2006/2007. The majority of the anticipated activities are ongoing rather than one-time only.

CERTIFICATION

Certification Sites

There were 366 FSP certification sites statewide; 310 of which had extended office hours in SFY 2005/2006. This is a 0.3 percent decrease in last years' 367 sites. However, there is a 39.0 percent increase in sites with extended office hours of operation; 310 in SFY 2005/2006 compared to 223 last year.

Determination of Operational and Extended Hours

- All 58 counties offered extended office hours to their working clients. Fifty-four counties used appointments (Monday through Friday before 8:00 a.m. or after 5:00 p.m., or during lunch).
 - The primary method used by counties to determine operational and extended hours of service to meet the needs of working clients was client requests as needed.
 - The top three access methods, other than extended office hours, most frequently utilized by working clients continue to be: (1) mailing required documents to CWD, (2) depositing documents in after hour drop boxes at the CWD, and (3) telephone interviews conducted Monday through Friday, 8 a.m. to 5 p.m.
