

ERRATA

TO: ALL COUNTY WELFARE DIRECTORS

SUBJECT: TREATMENT OF COMBINED AFDC-FG/U CASES

REFERENCE: ALL-COUNTY INFORMATION NOTICE I-32-93, DATED 8/27/93

This Errata provides "Attachment 1 (NOA/LANGUAGE INSTRUCTIONS) that was inadvertently omitted from the recently released ACIN I-32-93.

We apologize for any inconvenience this may have caused.

NOTICE OF ACTION

This attachment consists of this page and 5 page NOA Message Document M44-207K1. The Spanish versions are also included. The first 2 pages of the document contain NOA Messages, the 3rd page contains a computation, and the last 2 pages are instructions for completing the NOA.

Note that page numbers are used in 2 distinct ways on this document. There are the page numbers of the DOCUMENT in the upper right hand corner of each page. Then there are the page numbers of the NOA that you will create from the information contained in the document. These numbers appear elsewhere on the document.

- o NOA Page 1 consists of the Page 1 message placed on the NA 200 form.
- o NOA Page 2 consists of the Page 2 computation placed on the NA 270 form.

This is the complete NOA if there is no overpayment. If there is an overpayment:

- o Add to NOA Page 2, the Page 2 Message. (Note: You may, for general use, make up a Page 2 NOA master containing both the message and the computation. Then, if there is no overpayment, you don't fill in the blanks on the message.)
- o Complete an NA 274C overpayment form as Page 3 of the NOA.
- o Complete an NA 275 overpayment form as Page 4 of the NOA.

The NOA message and computation parts of the document have been set in narrow column format to enable counties to photocopy and use the text on NOA forms without retyping. (Note, however, that a slight additional photoreduction will be required to make the Page 1 message fit in the left column of the NA 200.)

Foreign language versions in the standard languages are being sent under separate cover.

INSTRUCTIONS FOR UPDATING THE AFDC NOA HANDBOOK

Insert the new NOA Message Document in Handbook Section 6.
