FOOD STAMP PROGRAM
Net Income Basis of Coupon Issuance

48 States and District of Columbia

For issuance to households of more than 20 persons use the following formula:

A Value of the Total Allotment. For each person in excess of 20, add $22 to the monthly coupon allotment and $11 to the semi-monthly allotment for a 20-person household. For all three-quarter monthly and quarter monthly allotments of uneven dollar amounts, round up to the next higher whole dollar amount with no change in purchase requirements for such allotments.

B Purchase Requirement.

1 Use the purchase requirement shown for the 20-person household for households with incomes of $1469.99 or less per month.

2 For households with monthly incomes of $1470 or more, use the following formula:

For each $30 worth of monthly income (or portion thereof) over $1469.99, add $9 to the monthly purchase requirement shown for a 20-person household with an income of $1469.99 (or $6.75 to the three-quarter monthly, $4.50 to the semimonthly purchase requirement, and $2.25 to the quarterly purchase requirement).

3 To obtain the maximum purchase requirement for households of more than 20 persons, add to the maximum purchase requirement shown for a 20-person household, $18 monthly; $13.50 three-quarter monthly; $9 semimonthly; and $4.50 quarterly for each person over 20.
