EARNED INCOME TAX CREDIT

## EITC Know it!

You may qualify for a cash back tax credit!

Did you know there's a new California tax credit for working families?

It's called the California Earned Income Tax Credit (CalEITC) and it's modeled after a federal credit that also gives back money to working families.

With the combined credits, you can get up to \$6,000. That's money you can use for rent, utilities, groceries, and other important expenses.

- Use the credit calculator to find out how much your "cash back" tax credits are worth!
