

## UPDATED INFORMATIVE DIGEST

### INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

This rulemaking action clarifies existing regulations and adds regulations to make specific additional requirements for administrator certification and the related educational programs per recently enacted legislation: Assembly Bill (AB) 2675 (Chapter 421, Statutes of 2006); AB 1856 (Chapter 639, Statutes of 2012); AB 663 (Chapter 675, Statutes of 2013); AB 1570 (Chapter 698, Statutes of 2014); and Senate Bill (SB) 911 (Chapter 705, Statutes of 2014).

These statutes require potential residential facility administrators to obtain certification from California Department of Social Services (CDSS) before employment as an administrator, and to renew such certification after completing required continuing education. Recent amendments to statute provide for online education, add subject areas to the required "core of knowledge" for each program and expand the initial training hours required of administrators in Residential Care Facilities for the Elderly (RCFEs).

Further, these statutes authorize CDSS to adopt regulations to establish conditions for the certification of administrators and for the approval of vendors of initial and continuing education programs for administrators.

### *Anticipated Benefits of the Proposed Regulation*

The objectives of this rulemaking are to bring the existing regulations into conformity with recent statutory changes as described herein and into consistency across the three program areas [Group Home (GH), Adult Residential Facility (ARF), RCFE], and to make other changes to clarify and strengthen requirements to address problems identified over the history of the program (e.g., cheating on administrator exams, vendor deficiency corrections), thus better protecting the vulnerable populations in these many residential facilities. The anticipated benefits of this rulemaking to the health and welfare of California residents, worker safety, and the state's environment are as follows: The proposal will benefit Californians, including program participants (i.e., facility administrators and training course vendors), by clarifying existing regulations and program processes in accordance with current statutes, thus providing for greater openness and transparency in the government-business interactions of the program. The clarifications should also result in more complete applications received by the Department from administrators and vendors and thus result in more timely processing and conclusions by Department staff [e.g., (non)certifying of administrators, (non)approval of vendors and their training programs]. The action should also result in more timely resolution of problems with training programs (e.g., when identified due to monitoring, changes in courses) and result in more consistent quality of education for facility administrators and thus improved facility worker safety and improved facility resident health and safety, which is the ultimate public purpose of the Administrator Certification Program. There is no specific anticipated benefit to the state's environment.
