2011 Realignment*

DESCRIPTION:

This section provides a summary of the 2011 Realigned programs, estimated caseloads, expenditures for programs and services, histories of rate changes, references to related information in this binder, and links to other resources available on CDSS’ website.

In June 2011, statute realigned state funding to the counties through the established 2011 LRF Protective Services Subaccount within the Support Services Account for the following programs: AAP, Agency Adoptions, Fed-GAP, FC, CWS, CAPIT, and APS. The CalWORKs information associated with 2011 Realignment is available in the CalWORKs Funding Subaccounts premise.

The LRF was created in the State Treasury to receive all revenues, less refunds, derived from the taxes described in Government Code sections 6051.15 and 6201.15. Revenues may be allocated to the fund pursuant to Revenue and Taxation Code sections 11001.5 and 11005, as well as other moneys that may be specifically appropriated to the fund.

The 2011 Realignment statute requires CDSS to annually report to the appropriate fiscal and policy committees of the Legislature. In addition, CDSS is required to publicly post a summary of outcome and expenditure data that allows for monitoring of changes over time that may have occurred as a result of 2011 Realignment on the child welfare system. The report can be found on the Realignment section of CDSS’ website.

An overview of AAP, FC, CWS, and Agency Adoptions is provided under the “Program History” tab in this binder. Descriptions for each of the realigned premises from the 2011 May Revision, which includes the full description, key data assumptions, methodologies, and funding for the FY 2011-12 realigned programs are available on the 2011 May Revision Realigned Premises section of CDSS’ website.

IMPLEMENTATION DATE:

The base year for 2011 Realignment funding is FY 2011-12.

SUMMARY OF REALIGNED PROGRAMS:

AAP

- The AAP provides financial support to families adopting a child with special needs. Children eligible for AAP benefits have one of the following characteristics that are barriers to adoption: mental, physical, medical, or emotional handicap; ethnic background, race, color, or language; over three years of age; member of a sibling group to be adopted by one family; or adverse parental background (e.g., drug addiction, mental illness).

FC Program

- Foster Family Homes
  - Foster family homes provide 24-hour care and supervision in a family environment for children who cannot live in their own homes.
  - The placements have a capacity of six or less.
  - The foster family homes are licensed by the state, county CCL agencies or are approved homes of relatives or non-related legal guardians.

* Please refer to the first tab titled “Acronyms” for a full description of acronyms.
2011 Realignment

SUMMARY OF REALIGNED PROGRAMS (CONTINUED):

- Foster Family Homes (continued)
  - The realigned foster family home reimbursement rates range from $707 to $883 per month based on the age of the child in placement. A SCI may be paid to a foster family home in addition to the basic rate on behalf of any AFDC-FC child requiring specialized care because of health and/or behavioral problems. A clothing allowance may also be paid by counties in addition to the basic rate.

- Foster Family Agencies
  - Foster family agencies are non-profit agencies licensed to recruit, certify, train, and support foster parents for children needing placement.
  - The foster family agencies primarily serve children who would otherwise require group home care.
  - The realigned foster family agency treatment rates include a basic rate similar to the foster family home rate, a set increment for the special needs of the child, an increment for social work activities, and an increment for administration, which includes recruitment and training. Reimbursement rates range from $1,808 to $2,084 per month based on the age of the child in placement. Reimbursement rates for foster family agencies with an Intensive Treatment FC program range from $4,256 to $5,803 per month based on the level of services provided to the child.

- Group Homes
  - Group homes are private nonprofit, non-detention facilities providing services in a group setting to children in need of higher level care and supervision.
  - These homes are the most restrictive out-of-home placement for children in FC, providing an option for children with significant emotional or behavioral problems who would otherwise require more restrictive environments.
  - The realigned group home reimbursement rates range from $2,457 to $10,410 per month depending on the level of services provided based on rate classification levels 1 through 14.

CWS Program

- The CWS program provides services to children who have been abused, neglected, or exploited and is comprised of the five components listed below:
  - The ER assessment is the initial intake service provided in response to reported allegations of child abuse, neglect, or exploitation that is determined, based upon an evaluation of risk, to be inappropriate for an in-person investigation.
  - The ER services provides an in-person response, when required, to reports of child abuse, neglect, or exploitation for the purpose of investigation and to determine the necessity for providing initial intake services and crisis intervention to maintain the child safely in his/her home or to protect the safety of the child.

* Please refer to the first tab titled "Acronyms" for a full description of acronyms.
2011 Realignment

SUMMARY OF REALIGNED PROGRAMS (CONTINUED):

CWS Program (continued)

- The FM is designed to provide time-limited protective services to the child and family in their own home to prevent or remedy abuse, neglect, or exploitation for the purpose of preventing separation of children from their families. The CWDs are responsible for determining the specific service needs of the child and family aimed at sustaining the child in the home.

- The FR is designed to provide time-limited protective services to prevent or remedy abuse, neglect, or exploitation when the child cannot safely remain at home. The CWDs are responsible for determining the specific service needs of the child and/or family aimed at reunifying the child with the family.

- The PP is designed to provide an alternative permanent family structure for children who because of abuse, neglect, or exploitation cannot safely remain at home and who are unlikely to ever return home. The CWDs are responsible for determining the appropriate permanent goal for the child and facilitating the implementation of that goal. These goals are defined as guardianship, adoption, or long-term placement.

Agency Adoptions Program

- The Adoptions Program is comprised of both Agency (Relinquishment) and Independent Adoptions Programs, however only Agency Adoptions were realigned.

- Funding is provided for adoption placements through a licensed adoption agency for children who have been relinquished by their parent(s) and/or the parental rights have been terminated by a court action due to abuse or neglect.

CAPIT Program

- The CAPIT Program was established to fund prevention and intervention services for children at risk of abuse and/or neglect. The funds are used for community-based public and private agencies to provide services to high risk children and families and provide training to funded agencies. The funds are also used as match for the federal CBCAP and CAPTA grants.

- The federal CAPTA of 1974 (PL 93-247) provides federal grant funds to states used to target statewide improvements that include expanding risk and safety assessments and assessing families’ needs for services. The Act consists of two parts: Title I, General Program, and Title II, the CBCAP Program. It is used to strengthen linkages between CWS, public health, mental health, and developmental disabilities agencies to screen children ages zero to five years who have come to the attention of child protective services and are in need of early intervention services.

- Funds are also used to enhance the capacity of family resource centers and family support programs to provide services to strengthen families, and to provide training on the assessment and developmental interventions for high-risk, medically fragile newborns.

* Please refer to the first tab titled "Acronyms" for a full description of acronyms.
2011 Realignment*

SUMMARY OF REALIGNED PROGRAMS (CONTINUED):

CAPIT Program (continued)
- With the passage of 2011 Realignment statutes, counties are no longer required to contract for services and may now use the realigned CAPIT funds in-house to provide direct services (such as home visiting, counseling, etc.) to the target population as long as federal match requirements (for county LRF dollars) continue to be met. These funds are managed by CDSS’ OCAP.

APS Program
- The APS Program provides assistance to elderly and dependent adults who are functionally impaired, unable to meet their own needs, or are victims of abuse, neglect, or exploitation.
- Under the APS Program, counties are required to respond to reports of abuse of elderly and dependent adults on a 24-hour ER basis, completing investigation and needs assessments, and providing case management services.
- In addition, the APS Program is required to provide necessary tangible resources such as food, emergency shelter care, in-home protection, transportation, and the use of multidisciplinary teams.

Title IV-E California Well-Being Project
- The Title IV-E California Well-Being Project (Project) allows counties to use capped federal Title IV-E funds in a more flexible manner to place more emphasis on child and family well-being.
- On March 31, 2006, the federal DHHS approved the Project for Alameda and Los Angeles Counties for the period of FY 2007-08 through FY 2011-12, with bridge extensions through September 30, 2014.
- On September 30, 2014, the federal DHHS approved a Project extension for the period FFY 2015 through FFY 2019, with additional participating counties.
- The counties that continued under the extension are referred to as Cohort One counties, and include Alameda and Los Angeles Counties.
- The additional counties that joined under the extension are referred to as Cohort Two counties, and include Sacramento, San Diego, San Francisco, Santa Clara, and Sonoma Counties.
- Butte County, originally part of Cohort Two, has opted-out of the Project effective July 1, 2017.
- Lake County, originally part of Cohort Two, has opted-out of the Project effective October 1, 2017.

- The AAP benefit is limited to the age-related foster family home basic rate for which the child would otherwise be eligible. Additionally, the grant cost for a child entering AAP on or after January 1, 2010, is held at the level provided at entry, and no increases are provided based on an increase in age.

Agency Adoptions Program

- Authorizing statute: W&IC sections 16100 through 16106.
- Adoptions funding is comprised of adoptions administration costs and State Operations Agency Adoptions costs. State Operations Agency Adoptions costs are not included in CDSS’ Local Assistance budget, but are included in the 2011 Realignment base funding.

CAPIT Program

- Authorizing statute: W&IC sections 18960 through 18965.
- The CAPIT funding level is based on the OCAP spending plan in FY 2011-12.

APS Program

- Authorizing statute: W&IC sections 13004 through 13007 as related to the County Services Block Grant; commencing with W&IC section 15600 as related to the Elder Abuse and Dependent Adult Civil Protection Act.

Title IV-E California Well-Being Project

- Authorizing statutes: The Project waives Social Security Act sections 472 (a) related to eligibility, 474 (a)(1) related to claiming and 474 (a)(3)(E), and 45 CFR 1356.60(c)(3) related to services.
- The federal funds are capped for Cohort One using FFY 2003-2005 federal expenditures and for Cohort Two using FFY 2008-2012 federal expenditures as the base year. Cohort One and Cohort Two have an assistance growth factor based on the annual CNI and an administrative growth factor based on a three-year moving average in expenditures for each year.

* Please refer to the first tab titled “Acronyms” for a full description of acronyms.
2011 Realignment*

KEY DATA/ASSUMPTIONS (CONTINUED):

Title IV-E California Well-Being Project (continued)

- The FY 2017-18 estimate assumes the assistance expenditures are $315.2 million federal funds and $384.0 million non-federal funds. The administrative expenditures are $492.3 million federal funds and $615.0 million non-federal funds.

- The FY 2018-19 estimate assumes the assistance expenditures are $322.8 million federal funds and $381.4 million non-federal funds. The administrative expenditures are $508.9 million federal funds and $616.6 million non-federal funds.

- If the state experiences a significant unanticipated increase in either assistance payments to families or administrative costs that exceed the growth rate and are unrelated to the implementation of the Project (e.g., stemming from federal, state, or county policy changes, court orders, or other external factors), the ACF may consider an adjustment to the federal base allocation.

METHODOLOGY:

The program expenditures were developed using updated caseloads, grants, and expenditures. For more information on specific methodologies, refer to the Estimate Methodologies section of the 2011 May Revision binder.

FUNDING:

Federal, county, and reimbursement shares of costs/savings have been determined using the same funding ratios applied prior to 2011 Realignment. The LRF is held to the FY 2011-12 Realignment base.

For children’s programs, federal funds include Title IV-B, Title IV-E, Title XIX, Title XX, and TANF. The FFP is 50 percent for both assistance and administrative expenditures and 75 percent for training expenditures. The percent of federally eligible administrative costs is 67 percent in FY 2017-18 and FY 2018-19 for the non-Project estimates. The percent of federally eligible administrative costs is 64 percent in FY 2017-18 and FY 2018-19 for the 58-county estimates.

For adult programs, federal funds are solely Title XIX. The FFP is based on a 75 percent enhanced FMAP for health-related activities performed by SPMP and 50 percent FMAP for health-related activities performed by non-SPMP.

For more information on specific sharing ratios, refer to the Estimate Methodologies section of the 2011 May Revision binder.

CURRENT YEAR CHANGE FROM APPROPRIATION:

The increase in FC assistance reflects growth in the FC and Fed-GAP grants, growth in the projected Fed-GAP and FC caseloads, and an increase in the realigned base due to fewer counties participating in the Project.

The AAP increase reflects growth in the average grant and growth in the projected caseload.

* Please refer to the first tab titled "Acronyms" for a full description of acronyms.
2011 Realignment

CURRENT YEAR CHANGE FROM APPROPRIATION (CONTINUED):

The CWS administration increase reflects growth in Title XIX expenditures.
There is no change for Adoptions administration, and OCAP administration.
The APS administration increase reflects updated expenditures.
The Project decrease reflects excluding Lake County expenditures from the Project, as funding has been shifted to Item 101, Item 141, and Item 151.

REASON FOR YEAR-TO-YEAR CHANGE:

The increase reflects growth in the projected Fed-GAP caseload, slight growth in the projected FC caseload due to fewer counties participating in the project, and the Fed-GAP and FC grants increasing by the FY 2018-19 CNI COLA.
The AAP increase reflects a growth in the projected caseload and the grant increasing by the FY 2018-19 CNI COLA.
The FC administration increase reflects growth in the projected Fed-GAP caseload and slight growth in the projected FC caseload due to fewer counties participating in the project.
The CWS administration increase reflects a growth in caseload partly due to fewer counties participating in the Title IV-E Waiver Project, and slight growth in Title XIX expenditures.
The Adoptions administration increase reflects the growth in overall expenditures.
There is no change in OCAP administration, and APS.
The Project increase reflects the federal assistance and administrative growth, offset by excluding Lake County expenditures from the Project, as funding has been shifted to Item 101, Item 141, and Item 151.
