The purpose of this letter is to inform counties of the revised Adult Protective Services (APS) and County Services Block Grant (CSBG) Monthly Statistical Report SOC 242 (9/15) data report. The SOC 242 is a monthly report used to collect data on the outcomes of investigations into the maltreatment of older adults and adults with disabilities. The revised report will be effective starting with the January 2019 report month.

The revised SOC 242 report has been specifically designed to collect the key components information requested by the Administration for Community Living under the National Adult Maltreatment Reporting System (NAMRS). The California

Department of Social Services (CDSS), APS Program worked with the counties and with the CDSS, Data Systems and Survey Design Section (DSSDS) on this revised report. For more information on the background and the reason for this revision, the summary of changes to the report, and the additional line items required for NAMRS, please refer to [ACL 18-132](#), dated November 9, 2018. Also, ACL 18-132 includes a link to a Frequently Asked Questions list of clarifications for the revised SOC 242 report.

Background

In 2014, the Administration for Community Living funded the development of the NAMRS which is the first comprehensive, national reporting system for APS programs. It collects quantitative and qualitative data on APS practices and policies, and the outcomes of investigations into the maltreatment of older adults and adults with disabilities.

ADULT PROTECTIVE SERVICE (APS) PROCESS FOR INCOMING REPORTS AND MOVEMENT THROUGH SOC 242 REPORTS

*SOC 242 (1/19) Adult Protective Services (APS) Monthly Statistical Report

ADULT PROTECTIVE SERVICE (APS)
PROCESS FOR INCOMING REPORTS AND MOVEMENTS THROUGH SOC 242 REPORTS
(Flowchart)

When a call is received by the APS Hotline, there are two possibilities:

- 1) The report is either screened out or
- 2) A report is taken from SOC 341, SOC 342, or System-generated report (SOC 242, Item 7).

If a report is taken, it will be evaluated to determine if it will become a case. If the report is not assigned as a case, no in-person response (NIR) is required (SOC 242, Item 11).

If the report does become a case, or is added to an existing case, there are three possible paths:

- 1) The report is assigned as a case resulting in County Determined No Ten-Day (NTD) In-Person Response (SOC 242, Part F),
- 2) An In-Person Response Investigation is conducted (SOC 242, Part G, Items 14 through 16 as appropriate), or
- 3) The investigation is discontinued with no findings made (SOC 242, Part L, Item 22)

If the report is assigned as a case resulting in County Determined No Ten-Day (NTD) In-Person Response (SOC 242, Part F), there are three possible paths:

- 1) NTD case that resulted in findings. Enter the finding in Part I or J as appropriate and the case closure reason reported (SOC 242, Part L),
- 2) NTD case that resulted in No Findings, enter it in Part L, Item 22 "Unable to Complete – Closed Investigations without findings due to lack of information," or
- 3) Case initially determined as NTD and later **re-evaluated** resulting in an in-person response. This is counted as a ten-day in case type.

If an in-person response investigation is conducted (SOC 242, Part G Items 14 through 16 as appropriate), a case plan is developed, services are provided (SOC 242, Part N), and the findings (SOC 242, Part I or J) and the case closure reason (SOC 242, Part L) are reported.

INSTRUCTIONS

CONTENT

The monthly SOC 242 report contains statistical information on the Adult Protective Services (APS) and County Services Block Grant (CSBG) programs. APS data includes reports of elder and dependent adult abuse that occurred in locations other than long-term care facilities, state mental health hospitals or state developmental centers.

PURPOSE

The SOC 242 meets the mandate set for Senate Bill 160 (Peace), Fiscal Year (FY) 1999-2000 Budget, Chapter 50, Statutes of 1999 and Senate Bill 2199 (Lockyer), Chapter 946, Statutes of 1998 (Welfare and Institutions Code section 15658). This report also provides county, state and federal entities with information needed for budgeting, staffing and program planning. The SOC 242 has been specifically designed to collect the key components information requested by the Administration for Community Living under the National Adult Maltreatment Reporting System (NAMRS).

COMPLETION AND SUBMISSION

The County Welfare Department (CWD) is responsible for ensuring that this report is fully and accurately completed. The contact person responsible for submitting the report to the state shall review the report for completeness and accuracy prior to submittal. Reports are to be received on or before the 20th calendar day of the month following the report month. If the report's due date is on a Saturday, Sunday or state holiday, the report is due on the next business day.

If a county determines that a revision is needed to its previously submitted report, the county shall submit a revised report for the applicable month(s) and provide an explanation for the revision in the Revised Report Explanation box. The California Department of Social Services (CDSS) policy requires counties to revise current State FY reports and two prior FYs, if needed. Revisions involving additional FYs will be evaluated by CDSS and the county to determine the corrections needed. When sending revisions, only include one report per email. **Emails containing multiple reports will not be accepted.**

Download the report form, which includes links to the report's instructions and validations, from the [CDSS, Data Systems and Survey Design Section \(DSSDS\) website](#). E-mail the completed SOC 242 report form to CDSS, DSSDS at admsoc242@dss.ca.gov. This electronic submission process contains automatic computation of some cells and provides for e-mail transmission of completed SOC 242 reports to DSSDS. If you have questions regarding the completion or submission of this report, contact DSSDS at (916) 651-8269 or via the SOC 242 report inbox.

The statewide and county specific SOC 242 data is available on the [CDSS, Research and Data Reports \(RADR\) website](#). Counties are encouraged to review their data on the RADR website each month to confirm the county's data matches the data on file at CDSS. For reference purposes, copies of the report form and instructions can be downloaded from the [DSSDS website](#).

For Frequently Asked Questions regarding the SOC 242 (1/19) version, please reference the [ACL 18-132](#).

The SOC 242 collects data concerning reports of elder and dependent adult abuse that occurred in a location other than a long-term care facility. Do not include on the SOC 242 reports of abuse which occurred in long-term care facilities, such as skilled nursing and residential care facilities for the elderly (either licensed or unlicensed), in state mental health hospitals or state developmental centers, except when APS staff participated in the evaluation and investigation of an incident of abuse in these facilities.

Information and referrals are activities provided by APS staff and/or contracted agencies, which enable persons to have accurate and current knowledge about available public and private resources established to help alleviate socio-economic and health problems; and which enable persons to identify and gain access to resources appropriate to their needs.

In-Home Assistance: Includes assistance from homemakers and home health aides; visiting and telephone reassurance (i.e., friendly visitors); chore maintenance; and personal care services.

Investigation: As defined in W&IC section 15610.40: "Investigation means that activity undertaken to determine the validity of a report of elder or dependent adult abuse." For purposes of reporting information on the SOC 242, an investigation begins once an incoming abuse report has been determined to meet the criteria of a case including reports assigned to a worker or supervisor as well as those evaluated as a NTD In-person response. A new report of abuse that is not a duplicate report shall be counted as a new investigation, even if there is already an open case. (Note: If a report contains multiple allegations including allegations of different types, this report shall be counted as one investigation.) Reports evaluated as Information and Referral or NIR are not considered to be cases and will not initiate an investigation.

 - The person shall meet the adult protective services definition of abuse/neglect and be in need of adult protective services.
 - The person shall reside in other than a long-term care facility, state hospital or state developmental center.
- APS program Jurisdiction (MPP section 33-405)

 - Geographic factors may require shared jurisdiction (e. g., when a person resides in County A, but the suspected abuse occurred in County B; see example below).

A county APS agency shall cross-report complaints of suspected abuse to law enforcement and to each agency it is required to report the suspected abuse per MPP section 33-405.1 and W&IC section 15640.

APS may also have shared jurisdiction with another APS county. For example, if a client resides in County A and an incident of abuse allegedly occurred in County B, APS in County B would assist County A with the investigation.

Limited English Proficiency: The client requires a translator (including an American Sign Language interpreter) or bilingual staff person to communicate with an English speaker.

Non-binary: Umbrella term for all gender identities other than female/male.

No In-person response Required (NIR): An in-person response is not required under the following circumstances, per W&IC section 15763(b)(2) and MPP section 33-510.2:

- The elder or dependent adult has moved out-of-state or out-of-county.

- The report of known or suspected abuse or neglect is a duplicate of an existing report or a previously resolved case without new allegations of abuse/neglect or present risks to the elder or dependent adult.

No Ten-Day (NTD) In-person response Provision Based Upon County Evaluation:

Reports evaluated by county APS for risk and meeting the following NTD in-person response criteria will be determined to be a NTD case within 10 days of the initial report date and will not require a 10-day in-person response and an in-person response will not be conducted, per W&IC section 15763(b)(2).

- The elder or dependent adult received or will receive intervention from another agency or resource.

- Financial self-neglect: The negligent failure of an elder or dependent adult to exercise that degree of self-care that a responsible person in a like position would exercise in regard to their finances.
