SUBJECT: DOCUMENTING CHILD WELFARE AND PROBATION
CONTACTS BY ALTERNATE MEANS TO CHILDREN AND
FAMILIES DURING NOVEL CORONAVIRUS (COVID-19)
CALIFORNIA STATE OF EMERGENCY

REFERENCE: PROVIDING OPTIMAL CHILD WELFARE AND PROBATION
SERVICES TO CHILDREN AND FAMILIES DURING COVID-19
CALIFORNIA STATE OF EMERGENCY [ALL COUNTY LETTER
\(ACL\) 20-25; CHILD WELFARE POLICY MANUAL SECTION 7.3
TITLE IV-B, PROGRAMMATIC REQUIREMENTS, QUESTION #8;
42 U.S.C. 622\(b\)\(17\); GOVERNOR'S PROCLAMATION OF A
STATE OF EMERGENCY, MARCH 4, 2020](#)

The purpose of this letter is to provide county child welfare agencies and juvenile probation departments with guidance on how to document monthly caseworker visits or investigatory contacts that occurred via videoconferencing in the Child Welfare Services Case Management System (CWS/CMS), consistent with the guidance stated in ACL 20-25 as it relates to the Novel Coronavirus (COVID-19) state of emergency in California. Any form of communication with child(ren), nonminor dependent (NMD), parent(s), and providers must be documented within CWS/CMS. It is recommended that all of these contacts be in the contact notes and include the method through which the visit was conducted (e.g. videoconferencing).

BACKGROUND

Children in foster care placements are required to receive monthly caseworker visits.¹ Generally, the Administration for Children and Families (ACF) has considered only face-to-face visitation to count towards this requirement. However, ACF has issued recent guidance through the Child Welfare Policy Manual² permitting Title IV-B³ agencies to waive the in-person aspect of the monthly caseworker visits and allow them to instead be accomplished through videoconferencing when an emergency prohibits or strongly discourages face-to-face contact for a public health reason or other similar public or individual health challenges. The determination that it is appropriate to accomplish a required monthly face-to-face through videoconferencing during this public health crisis must be made on a case-by-case basis, and under limited, specified circumstances, as outlined in ACL 20-25. Additionally, caseworkers must conduct the videoconference in accordance with existing timeframes established in Title IV-B of the Social Security Act, and must closely assess the child's safety during each conference.

DOCUMENTING VIDEOCONFERENCING CONTACT IN CWS/CMS

To document a videoconference contact in the identified child/NMD's case:

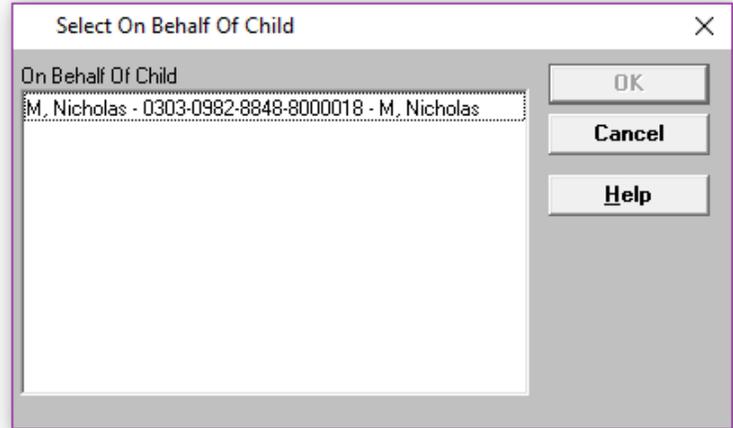

<p>1. Click the Service Management Section. Click the Create New Contact '+'.</p>	 <p>Service Management Section</p>
---	--

¹ Section 422(b)(17) of the Social Security Act

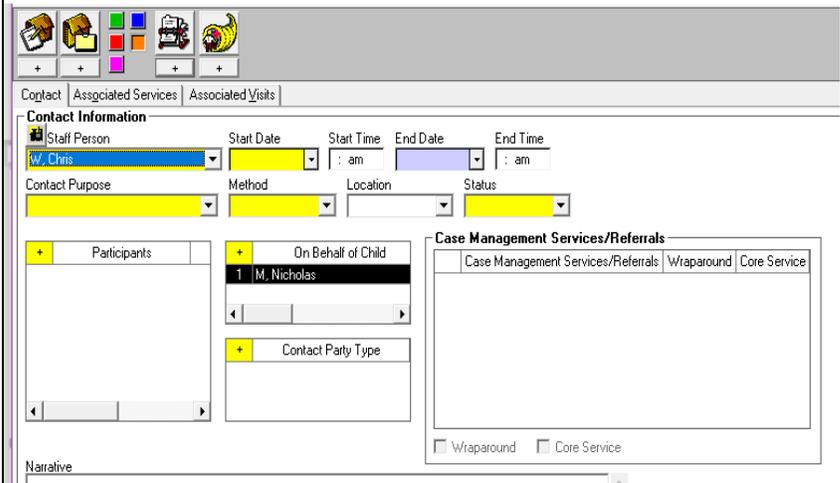

² CWPM section 7.3 TITLE IV-B, Programmatic Requirements, Question #8

³ Title IV-B of the Social Security Act

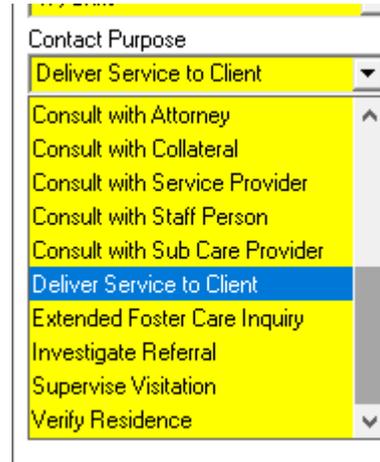

2. The **Select on Behalf of Child** window opens. Highlight the child client and click the **OK** button.

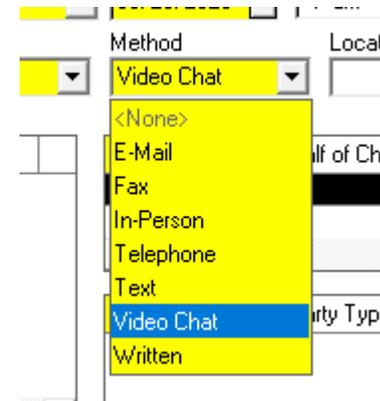

3. Complete the mandatory (yellow) and known fields. 'Start Date' is the date the videoconference occurred.

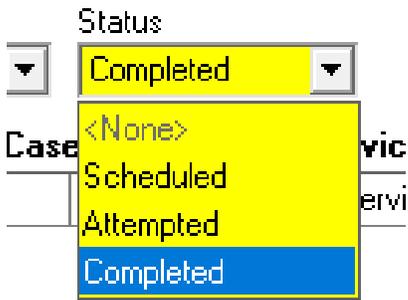

4. For 'Contact Purpose' select 'Deliver Service to Client'.

5. For Method, select 'Video Chat'.

<p>6. For 'Status', select 'Completed'.</p>	 <p>The screenshot shows a dropdown menu for the 'Status' field. The menu is open, displaying five options: 'Completed' (highlighted in yellow), '<None>' (highlighted in yellow), 'Scheduled' (highlighted in yellow), 'Attempted' (highlighted in yellow), and 'Completed' (highlighted in blue). The label 'Case' is visible to the left of the dropdown, and 'vic' and 'ervi' are partially visible to the right.</p>
<p>7. As stated in the Child Welfare policy Manual Clarification, Narratives must include language that indicates how the child's/NMDs safety was closely assessed during each videoconference. In addition, the narrative must include the specific reason for engaging via videoconferencing, rather than the expected face to face contact. It is insufficient to simply reference the COVID-19 public health emergency as a blanket reason for videoconferencing.</p>	 <p>The screenshot shows a text input field labeled 'Narrative'. The field is empty and has a vertical scrollbar on the right side.</p>

Other contacts that are not made face-to-face, such as telephone calls, texts, etc. should continue to be documented as such using the appropriate "Method" selection.

The authorization for required monthly face-to-face caseworker visits to be completed through videoconferencing during the COVID-19 public health crisis, as specified in ACL 20-25 or any subsequent guidance, expires on June 30, 2020, or sooner if determined by the Department, and all prior statutory, regulatory, and written guidance requirements related to required monthly case visits and associated documentation
