In-Home Supportive Services (IHSS)
Senate Budget Subcommittee #3 Hearing

California Department of Social Services
Adult Programs Division

March 8, 2018
In-Home Supportive Services (IHSS) – overview

The IHSS Program has a long, rich history of service and has been in operation for over 40 years. It is the largest program of its kind in the United States.

» Key tenet of IHSS: It affords consumers the ability to remain safely in their homes and communities in lieu of institutionalization.
FY 17/18 estimates approximately 518,511 IHSS consumers are authorized an average of 106.8 hours per month at an average monthly cost of $1,456.09 (absent the cost impacts of overtime).

IHSS consumers:
- 15% are 85 years of age or older
- 40% are ages 65-84
- 38% are ages 18-64
- 7% are ages 0-17
Today:

- 98% of the IHSS program receives federal funding
- Federally funded programs:
  - Personal Care Services Program (PCSP) and IHSS Plus Option (IPO) receive 50% federal financial participation
  - Community First Choice Option (CFCO) receives 56% federal financial participation
- Less than 2% of the IHSS Program is state-and-county funded only (65/35) through the IHSS Residual (IHSS-R) program
**IHSS Budget**

» The estimated IHSS budget for FY 18-19 is $11.2 billion:
   - $7.6 billion federal/county reimbursement
   - $3.6 billion state general funds

» The net increase of $1.1 billion from the 2017 Budget Act is due to the increase in minimum wage from $11.00 per hour to $12.00 effective January 1, 2019, and an increase in projected caseload and hours per case.

Methodology: Violations are tracked in the month they are triggered by a submitted timesheet regardless of service period. For example, timesheets for services between July 16-July 31, 2017 were not submitted until after August 1. All violations on these timesheets were counted in August.

*March 2017 Violations: Violations in March 2017 were incurred from late timesheets submitted prior to Feb. Part B. On 4/18/17, violations for February 2017 Part B and March Part A timesheets were rescinded and letters were sent to the providers (# rescinded below).

1st violations: 10,809
2nd violations: 1,867
3rd violations: 492
4th violations: 31

¹These are providers who exceeded the travel maximum of 7 hours per week. Included in the statewide total but not represented individually on the graph above.
²These are providers who triggered a violation in the month and currently have multiple violations. Providers with 4 violations are counted on the last day of each month.
IHSS Exemptions

» Exemption 1 (as of January 5, 2018):
  • 1,399 providers have a current exemption
  • 741 denied
  • 0 pending

» Exemption 2 (as of January 5, 2018):
  • 87 providers have a current exemption
  • 99 denied (some of these became Exemption 1)
  • 8 pending
IHSS Exemption 2 – SB 89

SB 89 (Statutes of 2017) allows eligible providers to exceed the 66-hour/week limit when eligible for the Extraordinary Circumstances Exemption (Exemption 2). This exemption applies to providers who provide services for two or more recipients whose extraordinary circumstances place them at serious risk of placement in out-of-home care, and each of the recipients meet at least one of the following criteria and no other provider is available:

• **Criteria A** – He or she has complex medical or behavioral needs that must be met by a provider who lives in the same home as the recipient.
• **Criteria B** – He or she lives in a rural or remote area where available providers are limited, and, as a result, the recipient is unable to hire another provider.
• **Criteria C** – He or she is unable to hire another provider who speaks the same language as the recipient, resulting in the recipient being unable to direct his or her own care.
SB 89 requires CDSS to inform potentially eligible IHSS providers and recipients about Exemption 2. It also moves Exemption 2 eligibility determination duties from the state to the county. CDSS is currently doing the following activities to meet SB 89 requirements:

» Sending an Exemption 2 informational mailer to all potential eligible providers and recipients.

» Issuing an All-County Letter with instructions for counties assessing and evaluating IHSS cases for exemption eligibility.

» Creating an Exemption 2 State Administrative Review (ESAR) process for providers when the county deems them ineligible for an Exemption 2.

» Implementing CMIPS II systems changes to support the county eligibility determination process. Transition is expected to be complete in spring 2018.

» Training for counties regarding the exemption process and CMIPS II system modifications will be provided via webinar(s) upon release of the instructions, which is expected in spring 2018.

IHSS Timesheet Data
Paper and Electronic Processing

For IHSS Electronic Timesheet information, go to:

http://www.cdss.ca.gov/inforesources/IHSS-Providers/Resources/Timesheet-Information
Electronic timesheets (ETS) piloted in three counties in June 2017. ETS was offered in all 58 counties on November 27, 2017.

- Total ETS Recipients: 84,820
  - IHSS Website: 84,209
  - Telephone Timesheet System (TTS): 538
  - BVI ETS Telephone Timesheet System (TTS): 73
- Total ETS Providers: 88,434
  - Active Enrollments: 76,920
  - Request Pending with Recipient: 11,514
• All providers enrolled are in active or leave status.
• 95,646 (19.7%) providers have registered (created a user name and password) to use the ETS website but may not have completed the enrollment process.
• 76,920 (15.9%) providers have active enrollment in ETS.

As of December 31, 2017, 15% of timesheets processed are electronic timesheets.
• On average, 68% of remittances paid is paper and 32% is EFT for calendar year 2017.

Enterprise Services, LLC
Sick Leave

SB 3 added Labor Code (LC) section 246(a)(2) which states, “Beginning July 1, 2018, an IHSS provider who works 30 calendar days within one year from the implementation date or the commencement of employment (whichever is later) as an IHSS provider will earn eight hours of paid sick leave.”

> Because IHSS providers do not work traditional work schedules, to ensure a fair and equitable method of earning sick leave and still comport with State Labor Code statutes, CDSS in conjunction with stakeholders determined that the current average number of hours worked by an IHSS provider in a 30-day period would be utilized as the criteria for having worked the required 30 calendar days.

> After 7/1/18, providers will earn 8 hours of sick leave after they have worked for 100 hours.
Sick Leave

The amount of paid sick leave earned is the full amount of leave each provider will receive for the year. Because of this, there will be no carryover of paid sick leave from year to year.

July 1, 2018—December 31, 2019: IHSS providers earn eight (8) hours of paid sick leave per year. [LC section 264(e)(1)]

January 1, 2020—December 31, 2021: IHSS providers earn sixteen (16) hours of paid sick leave per year when the minimum wage has reached $13 per hour. [LC section 264(e)(2)]

January 1, 2022: IHSS providers earn twenty-four (24) hours of paid sick leave per year when the minimum wage has reached $15 per hour. [LC section 264(e)(3)]
Sick Leave Usage

When Can the Provider Begin Using Sick Leave?

> After an IHSS provider has worked 100 hours and earned his or her 8 hours of paid sick leave, the provider must work an additional 200 hours, or 60 calendar days must pass after meeting the 100 hour requirement (whichever comes first), in order to use the 8 hours of paid sick leave.
» Sick Leave Usage

How much sick leave can be used at a time?

> All accrued hours may be used at once if needed.

> A base minimum increment of 1 hour shall be established for use of paid sick leave.

> Paid sick leave can be requested in increments of half-hour periods after the first hour.
SB 3 – Paid Sick Leave for IHSS Providers

» Sick Leave – Next Steps

> Stakeholder process to develop CMIPS II changes to implement paid sick leave is currently underway.

> CDSS is working with counties and stakeholders to develop policy for back-up providers for severely impaired recipients.

> All-County Letters on implementation are forthcoming.
Provider Enrollment

CDSS currently is working with stakeholders to identify potential ways to expedite the provider enrollment process. The workgroup is currently examining 3 aspects of the provider enrollment process:

> Streamlining distribution of enrollment forms (including DOJ background check forms)

> Increasing access to provider orientation

> Linkage of provider and recipient cases in order to issue initial timesheets more quickly
Subsection I of Section 1903 of the Social Security Act (42 U.S.C. 1396b), enacted in December 2016, requires all states to implement EVV for Medicaid-funded (Medi-Cal in California) personal care services by January 2019 and home health care services by January 2023.

EVV must capture six items:
- Type of service performed;
- Individual receiving the service;
- Date of the service;
- Location of service delivery;
- Individual providing the service; and
- Time the service begins and ends.

Daily start and stop time and the type of each service provided currently are not captured in the IHSS Program.
Electronic Visit Verification (EVV) – Federal Guidance

» The Centers for Medicare and Medicaid Services (CMS) held two webinars to provide guidance to the States:
  > Federal Law and EVV Requirements - December 2017
  > Promising Practices - January 2018

» Additional CMS guidance is expected soon
Electronic Visit Verification (EVV) – Federal Penalty Estimate

Failure to comply with the EVV requirement for personal care services will result in the escalating Federal Medical Assistance Percentages (FMAP) penalty below for only those services:

- For calendar quarters in 2019 and 2020, by 0.25 percentage points;
- For calendar quarters in 2021, by 0.5 percentage points;
- For calendar quarters in 2022, by 0.75 percentage points; and
- For calendar quarters in 2023 and each year thereafter, by 1.0 percentage point.

IHSS Program Penalty Estimate:

- FY 2018-2019 = $13,175,000
- FY 2019-2020 = $29,480,000
- FY 2020-2021 = $50,087,000
- FY 2021-2022 = $93,898,000
- FY 2022-2023 = $144,181,000
- FY 2023-2024 = $179,718,000
Electronic Visit Verification (EVV) – Stakeholder Engagement

» The State has not decided how, or when, EVV will be implemented. The State does intend to comply with federal law and is also committed to a thoughtful implementation process fully inclusive of stakeholders. Therefore, California will not meet the required implementation date of January 1, 2019. The State will work with the federal Centers for Medicare and Medicaid Services (CMS) to request a one-year good faith effort extension. The State will also work with stakeholders and CMS to identify a realistic implementation date, potentially beyond one year, that will allow for full stakeholder engagement and development of the least burdensome EVV approach for our recipients and providers as required by Section 1903 of the Social Security Act (42 U.S.C. 1396b).
Electronic Visit Verification (EVV) – Stakeholder Engagement

CDSS is committed to extensive stakeholder participation in the exploration of EVV implementation.

Engagement to Date

- Held the 1st EVV stakeholder meeting – 10/12/17
- Accepted stakeholder and legislative staff comments on a draft Request for Information (RFI) – 10/19/17
- Released the RFI – 10/26/17
- Received 18 RFI vendor responses – 12/13/17
- Presentations form Select RFI Vendors – Jan./Feb. 2018

Next Steps

- 2nd EVV Stakeholder Meeting – Friday, March 9, 2018, 1-3 p.m.
Additional Information & Questions

» For additional Information and future updates, please visit the **CDSS EVV Webpage**: [http://www.cdss.ca.gov/inforesources/IHSS/EVV](http://www.cdss.ca.gov/inforesources/IHSS/EVV)

» If you would like to be added to the State’s EVV Stakeholder Distribution List or submit EVV-related questions, please send an email to [EVV@dss.ca.gov](mailto:EVV@dss.ca.gov).
