Performance Incentives Projects Overall Expenditure Plan

Do not limit comments to space provided. If you have a Word Program, you may obtain an electronic version with expandable fields by sending an e-mail to regionaladvisors@dss.ca.gov with "Request for Overall Expenditure Plan Form" in the subject line.

Use this form to provide a brief explanation of your overall expenditure plan for performance incentives, including any plans to hold back expenditures and the status of any future planning processes. You must include how the benefits and services that will be provided using Performance Incentive Funds relate to the issue of sustaining self-sufficiency and how these services will be coordinated with other services within the community that are funded from sources such as the county's single allocation, Welfare-to-Work grants and community college funds.

PERFORMANCE INCENTIVE PROJECTS OVERALL EXPENDITURE PLAN

HUMBOLDT COUNTY

The 30 Programs described in Humboldt County's CalWORKs Incentive Funds Expenditure Plan were approved by the Board of Supervisors. Pursuant to those Board Orders, Humboldt County plans to use its incentive funds to expand the scope and availability of services to its eligible population throughout the County. Most of these services are located in the Eureka area, which makes access problematic for clients who live in outlying areas without adequate transportation. Many of these clients are not actively participating in the program, to the extent that they should because they are remote and unable to participate in many centralized services. One major use of the available incentive funds will be to participate in the development of community resource centers and services in various outlying communities in the county. The goal is to bring expanded array of services to CalWORKs clients so they will have access to resources to increase their ability to become self-sufficient. We are also working with economic development entities to identify employer needs in these areas so clients can be trained for available jobs. We also plan to bring mental health, drug and alcohol and domestic violence services to these centers.

As we participate in the development of the community and working in conjunction with the Employment Development Department, College of the Redwoods, Humboldt State University, County Schools and training entities to certify and bring family resource centers to outlying communities. We will also be working with the communities to identify and fund their specific needs for community service development related to Temporary Assistance of Needy Families Programs and service gaps. It is the agency's position that the residents of these communities are the best resource for identifying local needs, in partnership with the County Health and Human Services Staff.
