ALL-COUNTY INFORMATION NOTICE 1-42-80

TO: ALL COUNTY WELFARE DIRECTORS

SUBJECT: POTENTIAL SUSPENSION OF FOOD STAMP BENEFITS

USDA has determined that, at the current rate of expenditures, the Food Stamp Program will exceed its budgeted appropriation before the end of the federal fiscal year. Legislation is pending in Congress to authorize supplemental funding for the program, but USDA Secretary Robert Bergland has declared that the necessary appropriation must be secured by May 15, 1980, in order to forestall a suspension of food stamp benefits.

At this time, there are several major hurdles to overcome within the legislative process. Attached for your information is a letter that was sent to the California Congressional Delegation encouraging them to do whatever is necessary to avert benefit suspension. We urge you to write similar letters to your Senators and Representatives.

Despite these efforts, it is questionable whether Congress can meet the May 15 deadline. Secretary Bergland has, therefore, indicated that he plans to suspend benefits on June 1 if the deadline is not met. Depending upon the ultimate outcome of the appropriation legislation, USDA intends to restore June benefits and issue full benefits in July, but may reduce, suspend, or cancel benefits in August and September.

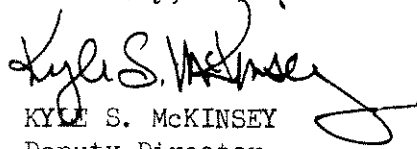

To implement these actions, USDA issued emergency regulations on April 2, 1980, which address procedures for the suspension, reduction, or cancellation of benefits. Corresponding state regulations are presently being prepared. The regulations provide for ongoing certification processes during the period of suspension. Counties will thus process applications and determine eligibility as usual, up to the point of ATP issuance (or coupon issuance, in non-ATP counties). Since the continuation of administrative functions has been federally mandated, it is our understanding that administrative funds will be provided as usual for the period of suspension.

Although the continuation of certification functions will help to reduce disruptions in county operations, it is anticipated that benefit suspension will cause many administrative, operational, and recipient problems. We recommend that counties particularly begin to examine their issuance systems - e.g., bonding and insurance capacities, status of coupon inventories, financial stability of issuance agents, computer modifications, etc., - as a precautionary measure. More specific details will be forwarded as they become known.

In addition, if suspension is implemented, changes may be required in reporting, fiscal claiming, and time study procedures. We are researching these issues and will advise counties of any new instructions as soon as possible.

Because of the uncertainty of benefit suspension, as well as the lack of specific information, counties must not notify recipients at this time. We are developing language for a notice and will forward it to you at a later date. At such time that USDA issues a formal directive, we will quickly notify all counties. In the meantime, we will apprise you of any major developments, in order to provide as much advance notice as possible.

Sincerely,

KYLE S. MCKINSEY
Deputy Director
