#### **DEPARTMENT OF SOCIAL SERVICES**

744 P Street, Sacramento, CA 95814

June 26, 2001

ALL-COUNTY LETTER (ACL) NO. 01-37

TO: ALL COUNTY WELFARE DIRECTORS

ALL FOOD STAMP COORDINATORS

SUBJECT: FOOD STAMP EMPLOYMENT AND TRAINING (FSET) PROGRAM PLAN

FEDERAL FISCAL YEAR (FFY) 2002

MANUAL OF POLICIES AND PROCEDURES 63-407 REFERENCE:

THROUGH 63-410 and ACL 00-41

The purpose of this letter is to inform counties of the FSET Program planning process for FFY 2002. Counties that are interested in participating in the FSET program in the upcoming federal fiscal year must complete and submit the enclosed FSET tables to the Department, as required by the Food and Nutrition Service (FNS) in Administrative Notices 98-80 and 96-34. Because a full state plan was submitted in 2001, FNS is only requiring the submission of certain tables for 2002. We will compile the information from county plans into a statewide plan that will be submitted to FNS. Counties not participating in FSET must complete and submit Tables 1A and 1B.

> Please submit county table(s) no later than July 27, 2001 to: **California Department of Social Services ATTN: Tony Pyara** 744 P Street, Mail Station 16-33 Sacramento, California 95814 **e-mail** tpyara@dss.ca.gov Fax # (916) 654-1048

## FSET Funding in FFY 2002 and the Various Funding Categories

While the federal government has not yet issued their preliminary FSET allocations for FFY 2002, CDSS estimates that there will be approximately \$18.1 million in 100 percent federal funds available in FFY 2002. This represents a 23 percent reduction from the amount of funds available in FFY 2001. Enclosure 1 provides the FSET allocations by various funding categories for each of the counties that indicated an interest in FSET participation in FFY 2002. The allocations are determined based on the counties' non-assistance food stamp caseload for calendar year 2000.

### Page Two

As described in FNS Administrative Notices 98-40 and 98-57 and Sections 16(h), 6(d)(4) and 6(e) of the Food Stamp Act of 1977, FSET funding is comprised of multiple funding categories with their own special claiming requirements. To ensure that all allowable expenses are fully claimed from the appropriate funding categories, CDSS must consider statewide aggregate expenditures. CDSS ensures that appropriate federal funds are claimed from the proper funding categories and makes any necessary adjustments through the year-end fiscal close-out process.

The following information on the various funding categories are intended to help counties have a better understanding of the federal claiming requirements:

#### 1. 100 Percent Federal Funds

The 100 percent federal funds are comprised of two subcategories: base funds (i.e., first component funds) of \$9.9 million and supplemental funds (i.e., second component funds) of \$8.2 million. To claim second component funds, a county must agree to obligate their Maintenance of Effort (MOE). The County MOE amounts shown on Enclosure 1 assume that all of the participating counties will agree to obligate their MOE and claim their full allocation of first and second component funds. Thus, a county's actual MOE can vary based on the actual statewide FSET expenditures in 100 percent federal funds.

## 2. County, State, and Federal Maintenance of Effort

When a county agrees to obligate their MOE, they may claim second component funds <u>and</u> state and federal MOE dollars. Counties will automatically draw down funds from the state and federal MOE categories whenever second component funds are drawn.

#### 3. Participant Reimbursement Rates

The rates remain the same as in previous years: \$25 for transportation and \$200 for dependent care. Participant reimbursements for dependent care and transportation are funded with 50 percent federal funds, 35 percent state funds and 15 percent county funds.

### 4. 50 Percent Federal and 50 Percent County Funds

This category of funds is used to pay for any expenditures that exceed allowable federal reimbursement rates, spending caps, or allocations in the other funding categories. The overages are funded with 50 percent county and 50 percent

### Page Three

federal funds. Anticipated overages must be included in the county's FSET plan budget as they are subject to federal approval.

#### Use of Funds

As in the past, counties may spend all of their 100 percent federal fund allocation (i.e., first and second component funds) to serve Able-Bodied Adults Without Dependents (ABAWDs) in qualifying activities.

However, expenditures for non-ABAWDs and ABAWDs in non-qualifying activities, such as job club, cannot exceed **20 percent** of the 100 percent federal fund allocation. Any expenditures that exceed the 20 percent cap for non-ABAWDs and ABAWDs in non-qualifying activities, or in excess of the 100 percent federal fund allocation, will be matched at the 50 percent federal and 50 percent county rate.

#### Reimbursement Rates

FNS has set two levels for the reimbursement rate: \$175 for a "filled" slot and \$30 for an "offered" slot. A slot is considered "filled" when a participant reports to an FSET activity in a month. A slot is considered "offered" when a bona fide FSET activity is made available to a participant in a month (i.e., the participant is told to report to an activity site at a given date and time, but the participant either refuses the assignment or does not report as directed). In the case of self-directed workfare programs, FNS will reimburse counties for filled slots only.

CDSS will determine each county's reimbursement amount by multiplying all the statewide offered slots by \$30 and all the statewide filled slots by \$175. The result is the maximum statewide amount that will be reimbursed with 100 percent federal funds. Expenditures above the maximum amount are reimbursed with 50 percent federal funds and 50 percent county funds.

### Clarification of Rules on Reimbursement Rates and Offered/Filled Slots

Counties may claim reimbursement at the filled slot rate (\$175) for every month in which an ABAWD participates in a qualifying FSET activity. For example, if an ABAWD is in a workfare program for six months, the county is entitled to \$175 for each of the six months, or \$1,050 total. If an ABAWD refuses a work slot in one month, but accepts it in another, the county may claim \$30 for the offered slot in the first month and \$175 for the filled slot in the second month.

## Page Four

Counties may also claim the same reimbursement rates for non-ABAWDs and ABAWDs in non-qualifying activities, but the expenditures are subject to the 20 percent spending cap discussed above (see section entitled Use of Funds). Please note, however, that counties may **not** claim multiple reimbursements for the same individual in the same month.

For example, if an ABAWD participates in both a 20-hour-a-week training component and a workfare program in the same month, the county may only claim a \$175 reimbursement for that month. Counties are reimbursed not for creating slots, but for placing individuals in work components. Since the two slots are only keeping one ABAWD eligible for the program, the county may claim reimbursement for only one filled slot. Similarly, when two individuals are assigned to the same slot (one to work four hours in the morning and the other to work four hours in the afternoon), reimbursement is allowed for two slots.

### Allowable Activities and Required Hours of Participation

In developing the plans, counties should continue to take into account the work requirements that were established under welfare reform. Enclosure 2 provides a table of the allowable FSET activities and the hourly participation requirements associated with the various components for ABAWDs and non-ABAWDs (this table was recently issued in All County Information Notice No. I-37-01).

As shown on Enclosure 2, counties may continue to combine elements of traditional FSET components with drug and alcohol rehabilitation. Such activities are allowable if they constitute less than 25 percent of a component and are not considered "medical" (i.e., a course(s) of treatment provided by licensed physicians, psychologists, etc., intended to treat a diagnosed condition). To be considered allowable, the drug and alcohol rehabilitation program must provide social and supportive services (e.g., discussion groups, general counseling, etc.) that can be directly linked to advancing an FSET participant's employment opportunities.

#### Guidelines for Completion of Federally Required Tables

In the past, some counties experienced problems in completing the tables. Please follow the guidelines provided in Enclosure 3 and instructions contained in ACL 00-41 when completing the tables. Counties may also refer to the STAT 46, FSET Program Quarterly ABAWDs Statistical and Expenditure Report, and the STAT 40, FSET Quarterly Statistical Report, as guides in estimating the data needed on the tables. Templates for all of the tables are provided in Enclosure 4. We are also providing examples of the completed tables in Enclosure 5. Counties that are not participating in FSET must complete Tables 1A and 1B only.

# Page Five

If you have any questions about this letter, please contact Tony Pyara at (916) 657-2630. Questions concerning your county's FSET allocation should be directed to Joan Gates of the County Financial Analysis Bureau at (916) 657-3806.

Sincerely,

Original Signed By Bruce Wagstaff on 06/26/01

BRUCE WAGSTAFF Deputy Director Welfare to Work Division

### **Work Registration Exemptions:**

State minimum wage is \$6.25 per hour effective January 1, 2001.

- Younger than 16 years of age or 60 years of age or older;
- 16 or 17 year old who is not head of household, or who is attending school or enrolled in an employment training program at least half time;
- Physically or mentally unfit for employment;
- Complying with CalWORKs Welfare-To-Work requirements;
- Caring for a dependent child under age 6 or an incapacitated person;
- · Receiving or has applied for unemployment insurance benefits;
- Participating in a drug or alcohol treatment program that prohibits employment of 30 hours or more per week;
- Employed or self-employed at least 30 hours per week or receiving weekly earnings at least equal to the federal minimum wage multiplied by 30 hours;
- Half-time school attendance.

### **ABAWD Exemptions:**

- Under 18 or 50 years of age or older;
- Pregnancy;
- Residing in a food stamp household that contains a dependent child;
- Meets the work registration exemptions (see above);
- Exempt under the 15% ABAWD exemption criteria.

**ABAWD Work Rule:** For a NAFS recipient over age 17 and under age 50, eligibility for food stamps is limited to any three months in a 36-month period during which the individual does not satisfy the ABAWD work requirement. The ABAWD work requirement is met by working or participating at least 20 hours per week in an allowable work activity, or by participating in workfare for the number of hours equal to the household's food stamp allotment divided by the higher of the federal or state minimum wage. The three-month eligibility limitation does not apply to individuals who meet one of the ABAWD or Work Registration exemption criteria shown above (MPP Sections 63-407.21 and 63-410.3).

**Clarification of Participation Requirements:** FSET participants may be assigned to more than one component at the same time. The total hours of FSET participation, including hours of employment, cannot exceed 120 hours per month.

**Food Stamp Sanctions**: A voluntary quit or noncompliance with Refugee Employment and Training, Comparable Workfare or FSET activities (other than Self-Initiated Workfare) shall result in a minimum one, three, or six-month FS sanction, unless the individual qualifies for a FS work registration exemption. ABAWD exemptions, other than work registration exemptions, will not end a FS sanction.

## **Guidelines for Completion of Federally Required Tables**

- 1. FSET and Non-FSET counties: Table 1A, Estimated Participant Levels, and Table 1B, County's 15 Percent ABAWD Exemption Criteria
  - A. The number of work registrants shown on line A is always greater than the number of FSET mandatory participants shown on line F and the number of ABAWDs shown on line G.
  - B. The work registrant count on line A should be an unduplicated count.

An unduplicated count is one where individuals will not be included in the reported work registrant counts more than once in any fiscal year. Make every effort to provide an unduplicated count and enter that number on line A.

- C. Counties may defer from FSET participation categories of work registrants (line B) or individual work registrants (line C). The number of deferrals shown on lines B3 and C8 are totaled on line D. This number represents the total work registrant population who is deferred that will not be required to participate in FSET.
- D. Counties may also exempt ABAWDs, who are at risk of losing their eligibility to food stamps due to not meeting the ABAWD work requirement, under the county's 15 percent ABAWD exemption criteria. We strongly encourage counties to utilize their annual allocation of 15 percent ABAWD exemptions as much as possible since maintaining food stamp eligibility for ABAWDs will help to ease potential financial strain on local food banks and other local charitable organizations.

Counties have complete discretion in establishing the criteria for use of this exemption (refer to All County Information Notice No. 1-31-01, dated May 3, 2001, for further information), and the exemption criteria must be described on Table 1B.

When exempting an ABAWD under the county's 15 percent ABAWD exemption criteria, the worker must document the basis for the exemption in the case file (i.e., specify the reason for using the 15 percent exemption) to avoid a quality control error. While FNS will not find an error if the county exempts an ABAWD using the 15 percent criteria not specified in the county's FSET plan, they will find an error if the case file is not documented that the 15 percent ABAWD exemption was applied.

# 2. FSET counties only: Table 2A, Estimated FSET Placement Levels / Estimated ABAWD Activity

The top section of this table requires the county to specify the estimated number of mandatory work registrants and volunteers (including ABAWDs) that the county expects to begin a component. Please note that Table 2A reflects a count of

placements, **not** participants. An individual may begin and participate in more than one component over the course of the year. Each time the individual begins a new component, the county should count a placement. However, if an individual's participation in a single component is not continuous (e.g., participation is interrupted by a disqualification), count the placement only at the time of initial commencement of the component. For example, if an ABAWD is placed in an activity in January, disqualified in February and re-enters the activity in March, that placement is counted only once.

The bottom section of this table requires the county to specify:

- the number of workfare opportunities it will create for ABAWDs in the county by "offered" or "filled" status, and
- the number of qualifying education and training opportunities it will create for ABAWDs by "offered" or "filled" status.

# 3. FSET Counties Only: Table 3A, Summary of Interagency Coordination of the FSET Program

This table requires counties to describe all their coordinated efforts with relevant programs and agencies to maximize use of all resources to assist food stamp applicants and recipients in improving their employability and self-sufficiency. Some community-based organizations or programs with which FSET may have linkages include: board of education, employment services, vocational education agencies and social services agencies. Current FSET counties do not have to resubmit this table if there is no change in Table 3 from FFY 2001.

# 4. FSET Counties Only: Table 4A, Operating Budget

The information provided on this table reflects the county's planned FSET program expenditures.

 Total Component costs in the small table at the bottom of the page must equal the total of the first three columns in the large table at the top of the page, (i.e., Salary and Benefits, Other Costs (Overhead), and Contract Costs.)

- Federal MOE, State MOE and County MOE in the small table at the bottom
  of the page are spread through the columns entitled: Salary and Benefits,
  Other Costs, and Contract Costs in the large table at the top of the page.
- Grand Total on Table 4A must equal the Grand Total on Table 5A.
- Sum of the Total Component and Assessment costs, in the small table at the bottom of Table 4A, must be the same as the sum of the numbers on rows 1, 2, 3, 4 and 5 on Table 5A.
- Transportation/Ancillary costs on Table 4A must equal the sum of rows 6a and 6c on Table 5A.
- Dependent Care costs in the small table at the bottom of the page on Table 4A must equal the sum of rows 6b and 6d on Table 5A.
- Assessment costs are not included in the large table at the top of the page.
   These costs are only shown in the small table at the bottom of the page.

# 5. FSET Counties Only: Table 5A, County Costs by Category of Funding

Estimate the total cost of the county's FSET program by funding categories as shown on the table. The total costs depicted on Table 5A must be identical to those shown on Table 4A. The column entitled "Estimate of FFY 2001 Expenditures" is the estimated expenditures projected for FFY 2001.

## Enclosure 4

# TABLE 1A ESTIMATED PARTICIPANT LEVELS FEDERAL FISCAL YEAR 2002

A.	Total unduplicated number of work registrants in the County during the planned Federal Fiscal Year (refer to STAT 40 for estimate).
B.	List the number of work registrants categorically deferred from FSET participation.
	1. Non-FSET Counties
	2. Substitute Program (e.g., General Assistance Programs,
	Refugee Cash Assistance Programs).
	3. Total (Line B1 plus Line B2)
C.	List the number of work registrants individually deferred from FSET participation as defined in MPP Section 63-407.8 (refer to STAT 40 for estimate).
	1. Temporary illness
	2. Lack of dependent care
	3. Lack of transportation
	4. Living too far from
	the FSET program
	5. Family difficulties
	6. Legal difficulties
	7. Temporarily unemployed, expected to return
	to work within 60 days
	8. Total (Line C1 through line C7)
D.	Total number of work registrants deferred from FSET (Line B3 plus Line C8).
E.	Percent of all work registrants deferred from FSET (Line D divided by Line A).
F.	Number of FSET mandatory participants* (Line A minus Line D) (refer to STAT 40 for estimate).
G.	Total number of ABAWDs in the County during the planned federal fiscal year (refer to STAT 40 for estimate).
H.	Average monthly number of ABAWDs exempted under the County's 15 percent ABAWD exemption allocation.

<sup>\*</sup>A mandatory participant is a work registrant who is not exempt or deferred under the FSET Program. A mandatory participant is not necessarily actively participating in the FSET Program.

# TABLE 1B COUNTY'S 15 PERCENT ABAWD EXEMPTION CRITERIA FEDERAL FISCAL YEAR 2002

Provide the criteria the county will use to exempt additional ABAWDs under the county's 15 percent ABAWD allocation. If the county is not using the exemption, provide explanation below.
