Dear Mr. McFall:

**FISCAL YEAR (FY) 2001/02 OPTIONS FOR RECOVERY (OFR) PERINATAL
SUBSTANCE ABUSE PROGRAM STATE GENERAL FUND (SGF) ALLOCATION**

The purpose of this letter is to inform you of Shasta County's OFR Program allocation for FY 2001/02. Based upon participating counties' historic spending trends, the state administered OFR Program's total funding of \$4.7 million is contained within the Governor's Budget Act of FY 2001/02.

Your SGF allocation was determined based upon the OFR budget of \$183,800 in total funds that your county submitted to the California Department of Social Services (CDSS) Foster Care Services Bureau. Your county's maximum level of funding for this program is **\$65,652 SGF** which was determined by calculating the federal, state, and county share for each of the three components (Recruitment, Training, and Respite Care) based on the appropriate sharing ratios for each.

There is no federal participation in the respite care component. The county share may be provided with county general funds or other sources of funds that are unrestricted and are eligible for this use as provided by the funding sources. The source of the county share shall meet all applicable state and federal requirements and provide counties with maximum flexibility.

Fiscal Claiming Instructions

The OFR Program is funded with state and federal funds where costs are Title IV-E eligible. The state share of costs for these expenditures is charged against the county's allocation. Prior to FY 2001/02, the three components of the OFR program (Training, Recruitment, and Respite) were controlled to separate SGF allocations. In an effort to allow counties additional flexibility in the administration of the program, the CDSS will now control the SGF portion of all three components to a single SGF allocation. This change in procedure does not imply that counties may significantly deviate from their projections as

stated in the budget summaries but does allow counties to maximize use of their SGF allocation by giving them the ability to claim more or less than their budgeted amount to each component.

Costs reported on the County Expense Claim are charged to the allocation as follows:
