The August 30th Report states:

"FUNDING FROM OTHER SOURCES

The Department recognizes that circumstances may arise when it is not clear whether staff hours associated with a particular activity fall into one of the program components used for classification purposes. Such circumstances will be determined by the Department on a case-by-case basis. As a general rule, however, the source of the revenue received by the group home provider to fund an activity will be used to make this determination.

For example, a group home program may have a staff (sic) person with professional qualifications in education who works with the children on their school work outside of the school classroom. Many children in foster care are below grade level and need special attention.

If the provider receives funding for this activity through the education system, it is considered an educational activity, which is not one of the three program components used for classification purposes.

However, if the provider is not otherwise funded for this activity, it may be considered a parental-type activity (helping one's child with his/her home work) that is allowable for funding under AFDC-FC and the hours will be counted as Child Care and Supervision for classification purposes. In "gray" areas such as this, considering the source of revenue used to fund an activity will allow the Department to avoid the possibility of duplication of funding from other public sources."
